Inclusive city

• Where everyone counts,
• All individuals have equal access to resources, knowledge and technology (social, spatial, economic dimensions)
• All individuals can make their own decisions about how to live the kind of life they believe and value.
• Where we can all flourish.
1 The city is produced to be spatially segregated
2 The city is molded to protect private property, not people
3 The city is organized to be seen from inside a vehicle at 60km/h

A good city for women, is a good city for all.

Thank you.
